Human Suport Services and Elementary/Secondary Education combined for 48.3 percent of spending in 2000 and were 48.0 percent combined in 2003.

Elementary/Secondary Education share has remained relatively level since FY 2001.

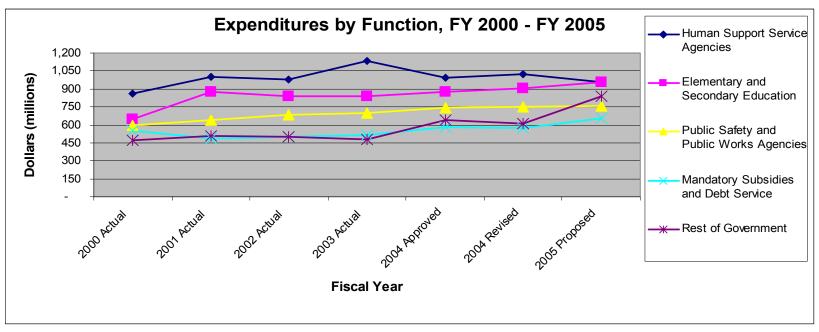

Public Safety and Public Works (basic/core functions of municipal government) have accounted for steady share of District expenditures over past six years.

Decrease in Debt Service has freed up a great deal of funds, especially since 2000. Reasons: tobacco securitization (and subsequent debt buy-down), low interest rates in recent years.

WARNING, however: required pension contributions (part of "Mandatory Subsidies") are expected to see large increases in FYs 2005 and 2006.

Fewer than 20 agencies account for 82 to 84 percent of District spending. "Rest of Government" (perhaps 70 to 80 agencies, depending on year) account for 16 to 18 percent.
